

BOOST TREADMILLS

OUR STORY

- 2004:** Our founders created AlterG® using air pressure technology invented by our founder's father at NASA.
- 2017:** Boost Treadmills founded with a simple mission: make microgravity treadmills more innovative, affordable, & reliable.
- 2021:** The Boost 2 redefines performance with the most advanced, durable, and only FDA-listed microgravity treadmill on the market.
- 2025:** The Boost 3 brings microgravity training home — the most affordable and accessible treadmill of its kind in the world.

EXPERIENCE THE BOOST 3 DIFFERENCE

JERIANNE JOHN

"I'm a 67 year-old former runner and pro basketball player. Seven years ago, a misdiagnosed injury forced me to give up running. Then one day I discovered the Boost 3 microgravity treadmill—and I'm running pain-free again! After seven years of not being able to jog at all, this feels like a miracle!"

THE ALL NEW

BOOST 3

MICROGRAVITY TREADMILL

Experience the future of low-impact movement — where air pressure technology puts gravity in your hands.

COMPACT DESIGN. LIMITLESS POTENTIAL.

Flexible lease, rental, & purchase options available.

SPEEDS UP TO 10 MPH, INCLINE UP TO 15%

WHISPER QUIET OPERATION

PREPROGRAMMED WORKOUTS & BFR INTEGRATION
